Re: California Proposition 65 Customer Statement – White Granulated Sugar, Brown Sugar, and Powdered Sugar

In response to concerns regarding the State of California's "Safe Drinking Water and Toxic Enforcement Act of 1986," commonly referred to as Proposition 65 ("Prop 65"), this memo confirms our compliance with the law.

We have reviewed the list of chemicals known to the State of California to cause cancer or reproductive harm. Based upon reasonable and ascertainable information and testing pursuant to USPR's *Heavy Metals Testing Policy Statement* and *Prop 65 Policy Statement*, the white granulated sugar, brown sugar, and powdered sugar marketed by United Sugar Producers and Refiners and produced by USPR's members do not contain chemicals found on this list in excess of applicable safe harbor limits established under Prop 65. The lists of the heavy metals and Prop 65 chemicals tested for are available upon request.

You may also visit https://www.p65warnings.ca.gov and www.p65warnings.ca.gov/products/food for further guidance.

The purpose of this statement is to provide a clear and transparent overview of United Sugar Producers and Refiners' current policies and practices.
